

To HR
Cinnober
Sweden

I have started my career in 2002 as a software engineer and worked with L&T, John Deere, Citigroup and Ericsson. I have worked mostly in a multi cultured with international clients and environment. I have also worked with Nordea bank as a software consultant from L&T Infotech between Jan-2009 to Jun-2010.

In July 2010 I moved to Karlskrona (Sweden) and since then I am working as a Java consultant in Ericsson through HiQ Karlskrona.

I have worked mostly with financial related applications, which gave me the opportunity to learn and understand banking and financial domain. Since 2 years I am involved in designing and developing an e-commerce solution for Ericsson. The total team size of the project is around 50.

I work in an agile team consisting of 8 members. We follow agile methodologies based on SCRUM i.e daily standup meetings, sprint planning, planning poker and retrospectives. Part of my responsibilities includes interacting with business analysts, QA, security analysts and system architects.

I am always willing to try out new and proven technologies in my work. Apart from that I am an active contributor for an open source project called neoclipse. You can find more information about my hobby projects at <http://github.com/nrkkalyan>.

I hold a bachelors degree in computer engineering. Apart from that I am also pursuing android course from Linne University and MBA program from BTH University Karlskrona through distance. I am a highly-motivated person, and always eager to learn new technologies and improve my skills.

Please consider viewing my resume, which contains additional information that I am sure, will be of interest to you. I am looking forward to speak with you about the position. Please feel free to contact me at your convenience to schedule an interview. Thank you for your consideration.

Sincerely,

Radhakrishna Kalyan
